SHIRE OF RAVENSTHORPE
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2023

1 (a) BASIS OF PREPARATION

The annual budget has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations.

The *Local Government Act 1995* and accompanying Regulations take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the Shire to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this annual budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

Financial reporting disclosures in relation to assets and liabilities required by the Australian Accounting Standards have not been made unless considered important for the understanding of the budget or required by legislation.

The local government reporting entity
All funds through which the Shire of Ravensthorpe controls resources to carry on its functions have been included in the financial statements forming part of this annual budget.

In the process of reporting on the local government as a single unit, all transactions and balances between those Funds (for example, loans and transfers between Funds) have been eliminated.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 14 to the annual budget.

2021/22 actual balances
Balances shown in this budget as 2021/22 Actual are estimates as forecast at the time of preparation of the annual budget and are subject to final adjustments.

Budget comparative figures
Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative figures
Where required, comparative figures have been adjusted to conform with changes in presentation for the current financial year.

Initial application of accounting standards
During the budget year, the below revised Australian Accounting Standards and Interpretations are expected to be compiled, become mandatory and be applicable to its operations.

- AASB 2020-3 Amendments to Australian Accounting Standards - Annual Improvements 2018-2020 and Other Amendments
- AASB 2020-6 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current - Deferral of Effective Date

It is not expected these standards will have an impact on the annual budget.

New accounting standards for application in future years
The following new accounting standards will have application to local government in future years:

- AASB 2021-2 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies or Definition of Accounting Estimates
- AASB 2021-6 Amendments to Australian Accounting Standards - Disclosure of Accounting Policies: Tier 2 and Other Australian Accounting Standards

It is not expected these standards will have an impact on the annual budget.

Judgements, estimates and assumptions
The preparation of the annual budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- estimation of fair values of land and buildings and investment property
- impairment of financial assets
- estimation uncertainties and judgements made in relation to lease accounting
- estimated useful life of assets

Rounding off figures
All figures shown in this statement are rounded to the nearest dollar.

All land (other than exempt land) in the Shire of Ravensthorpe is rated according to its Gross Rental Value (GRV) in townsites or Unimproved Value (UV) in the remainder of the Shire of Ravensthorpe.

The general rates detailed for the 2022/23 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rates have been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of local government services/facilities.

Differential general rate

Description	Characteristics	Objects	Reasons
GRV Residential	This rating category consists of properties located within the townsite boundaries which have a zoning of rural residential or residential, as per the Town Planning Scheme No 6.	This rate is to contribute to service desired by the community	The reason for this rate is to reflect the provision of 'residential' services, including significant recreational, cultural and medical facilities, primarily utilised by ratepayers and occupiers of residences within the Shire of Ravensthorpe. The objective of the proposed rate in the dollar for this category is to be the base rate by which all other GRV rated properties are assessed.
GRV Commercial	This rating category consists of properties zoned tourism or mixed use with predominately a commercial or tourism land use. This also includes the predominant land use of short stay tourism accommodation within residential areas.	The objective is to raise additional revenue to contribute towards higher costs associated with commercial activity	The objective of the proposed rate in the dollar is to recognise the costs of servicing commercial activity including car parking, landscaping and other amenities. In addition, costs associated with tourism, economic development and regulatory compliance benefit this category.
GRV Industrial	This rating category consists of properties zoned light and general Industry with predominately an industrial use.	The objective is to raise additional revenue to contribute towards higher costs associated with industrial activity	The objective of the proposed rate in the dollar is to recognise the costs of servicing industrial activity including car parking, landscaping and other amenities. Costs for environmental and regulatory compliances is higher for this category and is reflected in the rate in the dollar.
GRV Transient and Short Stay Accommodation	This rating category consists of properties predominately used for the purpose of Workforce Short Stay Accommodation or for Transient Workforce Accommodation.	The objective is to raise additional revenue to contribute towards higher costs associated with servicing this accommodation base.	The objective of the proposed rate in the dollar is to recognise the costs of servicing this accommodation base including airport infrastructure, sanitation infrastructure and services, recreational facilities including gymnasiums and swimming pools, together with a higher road use concentration within the Shire.
UV Rural	This rating category consists of properties that are predominately rural use	This rate is to contribute to service desired by the community	The objective of the proposed rate in the dollar is to form the basis for calculating all other UV differential rates. Valuations are supplied and updated by the Valuer General on an annual basis.
UV Mining	This rating category consists of properties that are used for mining, exploration or prospecting purposes.	The objective is to raise additional revenue to contribute towards higher costs associated with mining activity	The objective of the proposed rate in the dollar is to recognise the ongoing costs involved in maintaining the Shire's substantial road network that services this land use. Large scale equipment and heavy haulage operations of Mining result in the Shire's road network requiring ongoing maintenance to service these users.

2. RATES AND SERVICE CHARGES (CONTINUED)

(d) Differential Minimum Payment

Description	Characteristics	Objects	Reasons
All rating categories above except UV Mining, UV Other & GRV Transient & Short Stay Accommodation	Refer Above	This rate is considered the minimum contribution for basic services and infrastructure	This is considered to be the base minimum for all GRV and UV rated properties except UV Mining, UV Other and GRV Transient & Short Stay Accommodation.
UV Mining	Properties with a land use associated with mining, exploration or prospecting purposes.	This rate is lower than other rating categories recognising relatively less costs associated with providing services to principally small undeveloped mining	This provides equitable distribution of the rate burden and ensures less than 50% of properties in this category are paying the minimum amount in accordance with Section 6.35 of the Local Government Act 1995.
UV Other & GRV Transient & Short Stay Accommodation	Properties used predominantly for rural purposes and transient accommodation.	This rate is lower than the base minimum.	This lower minimum reflects a slight discount on the base minimum in recognition of the level of access to basic services and infrastructure.

3 (e) NET CURRENT ASSETS (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES

CURRENT AND NON-CURRENT CLASSIFICATION

An asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Shire's operational cycle. In the case of liabilities where the Shire does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current or non-current based on the Shire's intentions to release for sale.

TRADE AND OTHER PAYABLES

Trade and other payables represent liabilities for goods and services provided to the Shire prior to the end of the financial year that are unpaid and arise when the Shire of Ravensthorpe becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 30 days of recognition.

PREPAID RATES

Prepaid rates are, until the taxable event has occurred (start of the next financial year), refundable at the request of the ratepayer. Rates received in advance are initially recognised as a financial liability. When the taxable event occurs, the financial liability is extinguished and the Shire recognises revenue for the prepaid rates that have not been refunded.

INVENTORIES

General

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Superannuation

The Shire of Ravensthorpe contributes to a number of superannuation funds on behalf of employees.

All funds to which the Shire of Ravensthorpe contributes are defined contribution plans.

LAND HELD FOR RESALE

Land held for development and sale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

GOODS AND SERVICES TAX (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

TRADE AND OTHER RECEIVABLES

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Trade receivables are recognised at original invoice amount less any allowances for uncollectible amounts (i.e. impairment). The carrying amount of net trade receivables is equivalent to fair value as it is due for settlement within 30 days.

Trade receivables are held with the objective to collect the contractual cashflows and therefore measures them subsequently at amortised cost using the effective interest rate method.

Due to the short term nature of current receivables, their carrying amount is considered to be the same as their fair value. Non-current receivables are indexed to inflation, any difference between the face value and fair value is considered immaterial.

The Shire applies the AASB 9 simplified approach to measuring expected credit losses using a lifetime expected loss allowance for all trade receivables. To measure the expected credit losses, rates receivable are separated from other trade receivables due to the difference in payment terms and security for rates receivable.

PROVISIONS

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

EMPLOYEE BENEFITS

Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

CONTRACT LIABILITIES

An entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer. Grants to acquire or construct recognisable non-financial assets to be controlled by the Shire are recognised as a liability until such time as the Shire satisfies its obligations under the agreement.

SIGNIFICANT ACCOUNTING POLICES

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks, other short term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts.

Bank overdrafts are shown as short term borrowings in current liabilities in Note 3 - Net Current Assets.

FINANCIAL ASSETS AT AMORTISED COST

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

SIGNIFICANT ACCOUNTING POLICIES

RECOGNITION OF ASSETS

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

DEPRECIATION

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Major depreciation periods used for each class of depreciable asset are:

Buildings - All	30 to 50 years
Furniture and equipment	4 to 10 years
Plant and equipment	5 to 15 years
Infrastructure - Roads formation	not depreciated
pavement	20 to 50 years
seal - bituminous seals	20 years
seal - asphalt surfaces	25 years
Gravel roads formation	not depreciated
pavement	50 years
Footpaths	20 years
Sewerage piping	100 years
Water supply piping and drainage systems	75 years
Infrastructure - Park & Ovals	20 to 50 years
Infrastructure - Airport	20 to 50 years
Infrastructure - Other	20 to 50 years

AMORTISATION

The depreciable amount of all intangible assets with a finite useful life, are depreciated on a straight-line basis over the individual asset's useful life from the time the asset is held for use.

The assets residual value of intangible assets is considered to be zero and useful live and amortisation method are reviewed at the end of each financial year.

Amortisation is included within Depreciation on non-current assets in the Statement of Comprehensive Income.

LEASES	LEASE LIABILITIES
At the inception of a contract, the Shire assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.	The present value of future lease payments not paid at the reporting date discounted using the incremental borrowing rate where the implicit interest rate in the lease is not readily determined.
At the commencement date, a right-of-use asset is recognised at cost and a lease liability. at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Shire uses its incremental borrowing rate.

SHIRE OF RAVENSTHORPE
NOTES TO AND FORMING PART OF THE BUDGET
FOR THE YEAR ENDED 30 JUNE 2023

13. JOINT ARRANGEMENTS

Joint arrangement - Ravensthorpe Region Landfill

The Shire of Ravensthorpe together with the Shire of Jerramungup, have entered into a joint operation with regard to a regional waste management facility located on Reserve 7380, Moir Road Ravensthorpe.

The agreement between both Shire's govern the operation of the waste facility, covering operating and capital costs, responsibilities of the two Shire's, setting of fees and charges, record keeping etc. The Shire of Ravensthorpe is responsible for the day to day management of the facility. Key operating decisions in relations to the operating cost and future capital cost of the facility are to be agreed by both Shire's.

The regional waste facility commenced its operation in February 2018. Building of the facility was fully funded and is recognised in the financials of the Shire of Ravensthorpe as outlined below:

The apportionment of annual facility operating costs between the Shires of Ravensthorpe and Jerramungup is determined by the percentage of total waste tonnage (measured in cubic metres) delivered to the Facility by each Shire in the preceding financial year.

The Shire of Ravensthorpe's share of annual operating cost is determined by its percentage of total waste tonnage (measured in cubic metres) delivered to the facility by both parties in the proceeding year. This is estimated to be 74.5% for Ravesthorpe and 25.5% for Jerramungup.
